WORK EXPERIENCE

SDE Intern

Braktt, Madhya Pradesh, India

May 2024 - Present

- Utilized React JS, Next JS, and Tailwind CSS to revamp company website, resulting in a 20% increase in user engagement and a 15% decrease in bounce rate.
- Implemented clean code practices to enhance web design and responsiveness of client projects, leading to a 30% improvement in overall site performance metrics.
- Collaborated with cross-functional teams to incorporate CSS frameworks into project workflows, resulting in a 40% decrease in development time and a 25% increase in client satisfaction.

PROJECTS

• MovieGeek: [Movie Geek](#)

- A movie information application using React.js and Firebase.
- Modern and responsive design built on the Chakra UI.
- Integrated TMDB API to fetch various movies and shows data.
- Search for movies and shows. Add or remove movies and shows from your watch list.

• Expense Tracker: [Track your expenses](#)

- An expense tracking application using React.js and Tailwind CSS. Adding positive value counts as income and adding negative value counts as expense.
- Show your balance at the top. Integrated redux to store and manage expenses data.

• SmartScore: [QUIZ UP!!](#)

- Developed a Quiz application using React.js and Tailwind CSS.
- Integrated Open Trivia API to fetch various quiz questions.
- Select from a variety of categories and difficulty level.
